DETAILED ACTION

Election/Restrictions

1. Applicant's election of invention XIV in the reply filed on 8-30-2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 28 and 37 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. Claims 28 and 37 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: how does the method know the "identifying information on the person"? It is not clear what exactly this means.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3661

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

6. Claims 28 and 37 are rejected under 35 U.S.C. 102(e) as being fully anticipated by Stayton et al., 2004/0174295.

7. Claims 28 and 37 are rejected under 35 U.S.C. 102(e) as being fully anticipated by Hoffberg, 6791472.

8. Claims 28 and 37 are rejected under 35 U.S.C. 102(b) as being fully anticipated by Gray et al.

Conclusion

9. The claims are very broad. Basically, any modern commercial aircraft meets the limitations. Airliners or military aircraft all have transponders with receivers and transmitters, microphones and speakers for the pilot, GPS receivers, and scanners(radar). The transponders reply with detailed info on the individual aircraft.
